Senior Software Engineer

Software Engineer with 7 years of experience developing and implementing web applications using Java Spring Boot and PHP Laravel. Proven expertise in full project life cycle, frontend, backend, and server management. Currently, delivering enterprise solutions in a government organization, seeking to drive innovative software solutions.

SKILLS

Frontend: HTML, CSS, JavaScript, React, Bootstrap, jQuery

Backend: PHP, Laravel, Java, Spring Boot

Databases: SQL, MySQL, PostgreSQL

Concepts: REST API, DevOps, CI/CD

Tools: AWS, Postman, Swagger, Visual Studio, Jira, Git, WordPress, Docker

WORK EXPERIENCE

Creative City Free Zone Authority (Government Authority) • Fujairah, UAE

Senior Software Engineer • April 2023 - Present

- Developed and deployed ERP and CRM systems using Java Spring Boot and PHP Laravel, delivering scalable and reliable enterprise applications.
- Built and maintained frontend and backend components, ensuring seamless user experience and strong server-side performance.
- Managed server infrastructure, including deployment, monitoring, and optimization of cloud-based environments and services.
- Integrated secure payment gateways and developed data integration solutions for Ministry of Economy (UAE) systems.
- Utilized API management tools, microservices architecture, AWS, Docker, and Jira to build and deliver efficient, scalable solutions.

Zone Delivery Services LLC • Dubai, UAE

Software Developer • March 2021 - March 2023

- Developed ERP and CRM applications using Java Spring Boot and PHP Laravel, delivering scalable solutions and supporting full development lifecycle activities.
- Designed and implemented REST APIs in Laravel and Spring Boot to efficiently serve data to frontend systems and enable seamless integrations.
- Collaborated with engineering teams to refactor code, reduce load times, and ensure high-quality delivery through testing, debugging, and documentation.

Quest Innovative Solutions (P) Ltd • Kerala, India

Software Engineer • July 2020 - January 2021

- Developed web applications using HTML, CSS, and JavaScript, building responsive interfaces and ensuring cross-browser compatibility.
- Implemented backend solutions using PHP, Java, MySQL, and Laravel, delivering multiple projects with scalable and maintainable architecture.
- Collaborated with team members to deliver assigned tasks, researched new technologies, and applied OOP principles to improve code quality.

EDUCATION

Bachelor of Computer Application (BCA)

University of Calicut • June 2017 - March 2020
